Parenting in the AI Era — Sabse Zaroori Session

Hum apne bachcho se kehte hain — **"Beta padho, future secure karo."** Lekin kya hum khud jaante hain ki future kaisa dikhne wala hai? Yeh session aapki soch badal dega!

Sochiye — aapke bachche 2030–2035 mein job market mein enter karenge. Tab tak **50% traditional jobs khatam ho chuki hongi**. Agar hum unhe wahi purani cheezein sikha rahe hain jo 20 saal pehle chalti thi, toh hum unhe **future ke liye ready nahi kar rahe** — hum unhe **past ke liye train kar rahe hain**.

- ▶ **Parent Pehle, Bachcha Baad Mein:** Jab tak aap AI nahi samjhenge, aap apne bachche ko sahi guidance kaise denge? Pehle khud seekho!
- ▶ **Screen Time vs Skill Time:** Bachcha phone pe waste kar raha hai ya seekh raha hai? AI tools se screen time ko productive banao
- ▶ **Future Skills Roadmap:** Coding, AI, Digital Marketing, Content Creation — yeh sab subjects school mein nahi padhaye jaate, but future mein yahi chahiye
- ▶ **Real Life Examples:** 14 saal ke bachche AI se earn kar rahe hain — aapka bachcha kyun nahi?

Powerful Truth: "Bachche woh nahi seekhte jo aap kehte ho, woh seekhte hain jo aap KARTE ho. Agar aap AI use karoge, toh bachcha bhi inspired hoga."
